

An Independent Investigation?

“It is apparent that Dr Zelikow should never have been permitted to be Executive Staff Director of the Commission...It is abundantly clear that Dr Zelikow’s conflicts go beyond just the transition period. The Family Steering Committee is calling for: 1. Dr Zelikow’s immediate resignation...4. The Commission to apologize to the 9/11 families and America for this massive appearance of impropriety”

Statement of the Family Steering Committee for the 9/11 Independent Commission, 20th March 2004.

Philip Zelikow was eventually chosen to be the Executive Director of the 9/11 Commission and was responsible for deciding the lines of enquiry for the “investigation” .

Here are a few historical facts about the supposedly “non-partisan” and “independent” Dr Zelikow:-

- **Worked with Condoleezza Rice on National Security Council (NSC) in administration of first President Bush.**
- **During the Clinton administration wrote a book with Condoleezza Rice.**
- **Helped Condoleezza Rice to make transition to NSC for the second President Bush.**
- **Was the primary author of what came to be known as the “Bush Doctrine”, from which the new Doctrine of pre-emptive war was made official US policy.**
